

New "Impulse Drive" *Reduces Threat of Bariatric Care Injuries*

- **Safer for staff** - reduce need for dangerous transfers and expensive cumbersome lifts.
- **Save staff time** - no combing the facility for 4-6 nurses to move a 1,000 lb. patient and bed through the facility or risk injury transferring to wheelchair.
- **Improve staff morale** - Reducing the number of transfers means you reduce the threat of career ending injuries and improve nursing staff morale in your bariatric unit.
- **Part of Emergency Evacuation Plan** - Only one person is needed to move patient in an emergency.

Impulse Center-of-Bed Power Drive System is Best.

Provides superior maneuverability when compared to all Power Drives at end of bed.

50" Turning Radius, allowing (in room) tight positioning correction.

Impulse Bed Drive System is Safer for Staff, Saves Time and Simplifies Emergency Transport.
